

# User testing

## Step 1: The Usability Test

User Feedback: Explain here in detail

1. Lack of “most popular choices” in the searching page
2. Lack of sorting by restaurants types on page 2
3. Lack of pictures and opinions in the selected restaurant

### Proposed Changes as a result of feedback

1. I will add a “most interested” part on the welcome page
2. I will add a “sorting lists” part on page 2
3. I will add more pictures and comments about the selected restaurant.

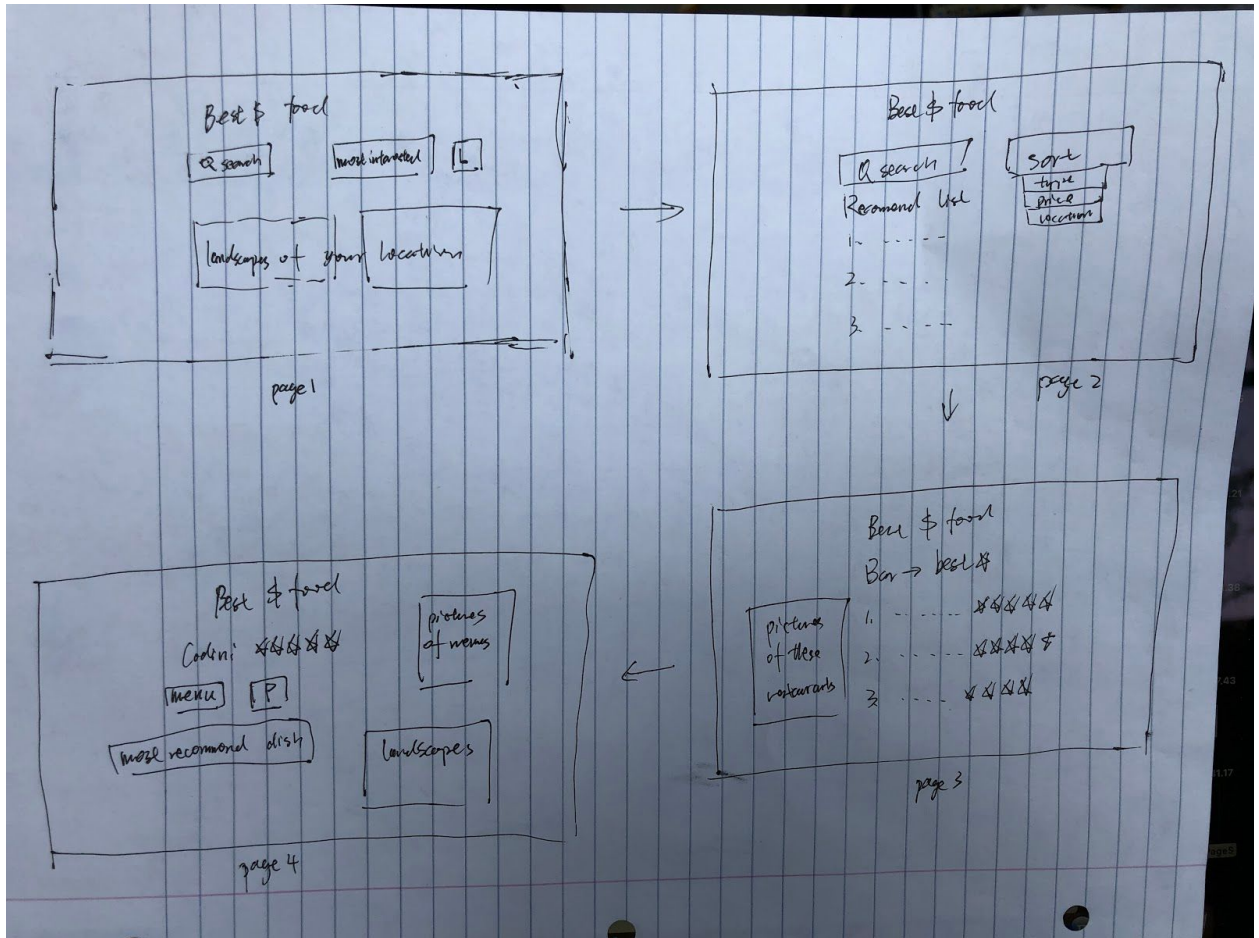

## Step 2: Revision

Explanation of changes made

1. The “most interested” part will help user to explore places they didn’t know before.
2. The “sorting lists” part would help user sort the searching results by any types like from expensive to cheap.
3. More pictures and comments would help user decide whether they really like the place they choose.

### Step 3: Second Usability Test

User Feedback: Explain here in detail

1. Add prices in the fourth page too.
2. Need categories about restaurants types like location and miles.
3. Lack of some landscapes and pictures after you chose your location and restaurant.

Proposed Changes as a result of feedback

1. I will add prices in the fourth page.
2. I will add some categories when searching

3. Add more landscapes and pictures about restaurant and location.

## Step 4: Revision

Explanation of changes made

1. The pages become more clear.
2. Will help users sort their interest.
3. Would attract user interests.
